

Rockchip RK3588

Typical Application Diagram – AIoT

Rockchip RK3588

Overview

Rockchip RK3588 is a high-performance SoC designed for various applications, including 8K video processing and AI capabilities.

Key Features

- Rockchip RK3588 SoC
- **8K** video processing capabilities
- AI capabilities
- Wi-Fi 6E, USB 3.0, and 5.0 connectivity

Applications

Rockchip RK3588 is suitable for various applications such as smart displays, AI cameras, and edge computing.

Performance

8K

Rockchip RK3588 supports 8K video processing, providing high-quality visual output.

AI

Rockchip RK3588 features AI capabilities for various applications, including image recognition and video analysis.

8K

8K video processing capabilities are supported by the Rockchip RK3588 SoC.
