1000M

BT

4.0

5G WiFi | Fast transmission, stable signal, and wide coverage.

Intel® Broadwell-U i3-5005U

Intel High Performance Processor

Intel® Broadwell-U i3-5005U, a fast and environment friendly processor, it has a stable structure and good heat dissipation, which greatly ensures the service life of it, and makes your daily work and entertainment no pressure.

BT4.0

Low power consumption
High running speed
Fast connection and good stability

Multiple devices work with same BT; link stability brings you a good experience.

Headset

Speaker

Mouse

Tablet

Phone

Dual HDMI

Two HDMI, two screens, then you can work while playing.

USB 3.0+Type-C

Maximum transmission speed of 500m/s

Max  **500M/S**

Phone

Hard Drive

U disk

Mouse

Keyboard

Max SSD Supported up to 1T

Quick startup, fast loading, time saving, working efficiency improving and entertainment enjoying.

Human-friendly Cover Design

Pressing the cover switch to open the case, it is convenient to replace the hard disk.

① Press switch

② Open the top cover and replace the hard drive

③ Replacement completed and close the lid
