a better user experience

ENHANCED COLOR

Provide a better color level, so that the viewer presents a greater degree of reality

The general color display, not bright and true, it is because the color gamut is not enough

Selecting a Sub Display in PIP Mode

The diagram illustrates the process of selecting a sub display in PIP mode on a Smart TV Box. It consists of three main parts: a sequence of steps, a screenshot of the PIP settings menu, and a screenshot of the Smart TV Box home screen.

Step 01: Select APP "Setting".

Step 02: Select "Start PIP".

Step 03: Multiple windows display content.

The screenshot of the PIP settings menu shows the following options:

- Start PIP** (selected)
- Broadcast**
- Record setting** (with a **Record** button)
- Resolution** (1920x1080)
- Output path** (/storage/emulated/0/Pictures/HDMIxDemo)
- Schedule record** (with a **Reservation** button)
- Mute** (checkbox)

The screenshot of the Smart TV Box home screen shows the following apps:

- HDMI IN** (selected)
- Apps**
- facebook**
- KD PLAYER**
- Settings**
- Chorme**
- Skype**
- You Tube**
- Play Store**
- Mu**

The Smart TV Box is shown with a digital display showing the time 12:95 and the date 07:30. The text "Multiple windows display content" is shown with an arrow pointing to the PIP mode interface.
