4.0

# **5G** WiFi Fast transmission, stable signal, and wide coverage.

#### Intel® Broadwell-U i3-5005U

# Intel High Performance Processor

Intel® Broadwell-U i3-5005U, a fast and environment friendly processor, it has a stable structure and good heat dissipation, which greatly ensures the service life of it, and makes your daily work and entertainment no pressure.

**BT4.0** 

Low power consumption High running speed Fast connection and good stability

Multiple devices work with same BT; link stability brings you a good experience.

Dual HDMI

Two HDMIs, two screens, then you can work while playing.

## USB 3.0+Type-C Maximum transmission speed of 500m/s

## Max 1 500M/S

Phone

Hard Drive

U disk

Mouse

Keyboard

### Max SSD Supported up to 1T

Quick startup, fast loading, time saving, working efficiency improving and entertainment enjoying.

### **Human-friendly Cover Design**

Pressing the cover switch to open the case, it is convenient to replace the hard disk.
