Why choose Onenuts Nut 5 Intel Mini PC Apollo lake Windows 10 64-bit Support 4K SATA MSATA Dual HDMI Mini Computer?

1. Bring back the Functionality and Productivity in the same equation: The Onenuts Nut 5 Windows 10 HTPC is powered by the Intel Apollo Lake Celeron J3455 Chipset with speeds up to 2.3Ghz under heavy load. This is a 64bit #4 Core / #4 Thread Desktop Processor supporting a vast majority of Intel's Advanced Technologies such as Secure Boot, Intel Virtualization Technology (VT-x), Intel HD Audio Technology, Secure Key, etc..

2. The Onenuts Nut 5's Graphics are provided by the On-Board Integrated Intel HD Graphics 500 Chip, which: Combined with the 2x HDMI 1.4 Ports located on the back of the unit allow you to run a Dual-

Desktop scenario with no issues.

3. In terms of connectivity, the Onenuts Nut 5 offers a RJ45 1GB/s Ethernet Port located at the back, a Dual-Band Wi-Fi Configuration and a Bluetooth 4.1 Adapter.

4. This HTPC is small, yet powerful: The Onenuts Nut 5 is perfect for day-to-day tasks and office work.

5. A VESA Bracket is included in the box, perfectly concealing the unit on the back of your TV or Monitor.
