

Android Internet TV Box Supplier

Specifications

Model No.	Amlogic S928X-J Android Internet TV Box Supplier
CPU	Amlogic S928X-J ARM Cortex-A76+Quad-Core ARM Cortex-A55
GPU	ARM Mali-G57 MC2, 4K GUI OpenGL ES 3.2, Vulkan 1.2 and OpenCL 2.0
NPU	3.2 TOPS
RAM	64-bit DDR4, LPDDR4/4X UP to 8GB DDR4266
eMMC	eMMC 5.1, SLC NAND Flash
Decoding resolution	<p>Amlogic Video Engine (AVE) with dedicated hardware decoders and encoders</p> <p>Decoding</p> <p>AV1 MP-10 @ L6.1 up to 8Kp60</p> <p>VP9 Profile-2 @ 6.1 up to 8Kp60</p> <p>H.265 HEVC MP-10 @ L6.1 up to 8Kp60</p> <p>AVS3 Phase 1 up to 8Kp60</p> <p>AVS2-P2 Profile up to 8Kp60</p> <p>H.264 AVC HP @ L5.2 up to 4Kp60</p> <p>MPEG-4, WMV/VC-1, AVS, MPEG-2, MPEG-1 up to 1080p60</p> <p>MJPEG and JPEG unlimited pixel resolution decoding (ISO/IEC-10918)</p> <p>Support multi-video decoder up to 4x 4Kp60</p> <p>Encoding</p> <p>JPEG image encoding up to 4Kp60</p> <p>H.265 video encoding up to 4Kp60 with low latency</p> <p>H.264 video encoding up to 4Kp60 with low latency</p> <p>8th Generation Advanced Amlogic TruLife Image Engine with support for Dolby Vision (optional), HDR10+, HDR10, HLG, and HDR Vivid processing</p>
AI accelerator	<p>Up to 3.2 TOPS Neural Network Accelerator (NNA) with Tensor Processing Unit (TPU) architecture, supports TensorFlow and Caffe</p> <p>HDMI 2.1a transmitter including both controller and PHY supporting CEC, Dynamic HDR, and HDCP 2.2/2.3, up to 8Kp60 max resolution output with support for eARC, VRR, QMS, QFT, ALLM, DSC & SBTM</p>
Video output	<p>Support for MP3, AAC, WMA, RM, FLAC, Ogg Vorbis, Opus, SRS Truvolume, Dolby Audio (optional), DTS (optional), and programmable with 7.1/5.1 down-mixing</p> <p>Low-power VAD</p>
Audio output	<p>Built-in SPDIF input/output up to 192KHz 16/24/32bit stereo</p> <p>3x built-in TDM/PCM/I2S ports with TDM/PCM mode up to 48kHz x 32bits x 32ch or 192kHz x 16bits x 16ch and I2S mode up to 384kHz x 32bits x 16ch</p> <p>Digital microphone PDM input with programmable CIC, LPF, HPF, support up to 8 DMICs</p> <p>Built-in stereo audio DAC</p>
Network interface	10/100/1000 MAC
USB2.0 interface	1x USB XHCI OTG 2.0, 2x USB 2.0 host, 1x USB 3.0 (5 Gbps) multiplexed with PCIe 2.0

S928X

Amlogic S928X-J is the first 8K UHD smart STB SoC integrating ARM Cortex-A76, ARM Cortex-A55 and self-developed neural network processor. It supports 8Kp60 video decoding function of global mainstream video formats—AV1, H.265, VP9, AVS3, AVS2, etc. Meanwhile, 4K GUI, intelligent SR and other functions are viable as well, thus providing an outstanding hardware engine for customized high-end applications.

As the demand for high-performance multimedia entertainment continues to rise, Amlogic has once again delivered an innovative solution with the launch of its latest S928X-J chip. Designed to deliver a seamless, immersive multimedia experience, the S928X-J chip boasts a range of impressive features that are sure to impress tech enthusiasts and consumers alike.

One of the key selling points of the S928X-J chip is its powerful processing capabilities. The chip is equipped with an eight-core ARM Cortex-A53 CPU, which provides lightning-fast speeds and delivers exceptional performance for a wide range of multimedia applications. Whether you're streaming 4K content, playing high-definition games, or running multiple apps at once, the S928X-J chip ensures that you enjoy a smooth and uninterrupted experience.

Another standout feature of the S928X-J chip is its support for high-quality audio and video output. The chip supports up to 4K resolution at 60 frames per second, which means that you can enjoy your favorite movies and TV shows with breathtaking clarity and detail. Additionally, the chip supports HDR10 and HLG technologies, which provide a wider color gamut and better contrast, making your viewing experience more immersive than ever before.

The S928X-J chip is also designed to deliver a high-quality gaming experience. The chip is equipped with a powerful Mali-G31 MP2 GPU, which provides exceptional graphics performance and supports OpenGL ES3.2, Vulkan 1.1, and OpenCL 2.0. This means that you can play the latest games with stunning graphics and enjoy smooth, lag-free gameplay.

In addition to its impressive hardware specs, the S928X-J chip also features advanced software optimizations that enhance its performance and usability. The chip is based on the Android TV 10 operating system, which provides a user-friendly interface and access to a wide range of apps and content. The chip also supports Google Assistant, which allows you to control your TV and other connected devices with your voice.

The S928X-J chip is also designed with connectivity in mind. The chip supports dual-band Wi-Fi and Bluetooth 5.0, which ensure fast and reliable wireless connectivity. It also features a range of ports, including HDMI, USB, and Ethernet, which provide flexible connectivity options for a wide range of devices and peripherals.

Overall, the Amlogic S928X-J chip is a game-changing solution for high-performance multimedia entertainment. Its powerful processing capabilities, support for high-quality audio and video output, and advanced software optimizations make it a standout choice for tech enthusiasts and consumers who demand the best in multimedia entertainment. Whether you're streaming your favorite content, playing games, or using your TV for other applications, the S928X-J chip ensures that you enjoy a seamless, immersive experience.

As the leading Android Internet TV Box supplier, we are dedicated to providing top-tier entertainment solutions that elevate your viewing experience. Our Android Internet TV Box combines cutting-edge technology, seamless streaming capabilities, and versatile connectivity options to deliver an immersive and enjoyable entertainment experience.

Our Android Internet TV Box supports high-definition and 4K resolutions, ensuring crisp and detailed visuals for your favorite movies, TV shows, and games. Powered by the Android operating system, our devices grant access to a vast library of apps, games, and content through the Google Play Store. Whether you're streaming media, playing games, or using productivity apps, our Android Internet TV Box offers endless possibilities.

Connectivity options are comprehensive, with built-in Wi-Fi and Ethernet support ensuring fast and stable internet connections. This is crucial for seamless streaming of high-definition content without buffering or interruptions. Multiple USB ports and expandable storage options provide flexibility for connecting peripherals and storing media files, enhancing convenience and usability.

The user interface of our Android Internet TV Box is designed to be intuitive and user-friendly, making navigation effortless. Whether you're setting up the device for the first time, exploring apps, or adjusting settings, everything is streamlined for a smooth and enjoyable user experience.

Our commitment to quality extends to our customer service and support. As a trusted Android Internet TV Box supplier, we prioritize customer satisfaction and strive to provide prompt assistance

and solutions to any inquiries or issues you may encounter.

In summary, our Android [Internet TV Box](#) solutions from the leading supplier offer cutting-edge technology, seamless streaming, versatile connectivity, and excellent customer support. Whether you're a casual viewer, a gaming enthusiast, or a multimedia user, our Android Internet TV Box is the perfect choice to elevate your entertainment experience to new heights.
