Picture Show

The image is a screenshot of the AnTuTu Benchmark application interface. At the top, the score '24349' is prominently displayed in large white digits. Below the score, a brief description states: 'CPU: Good, Supports large apps and multitasking. RAM: Excellent, 2D graphics: Excellent, 3D graphics: Excellent, Fluently support large mobile games.' The main content area is a table of device specifications with values. The table includes columns for 'Test', 'Ranking', and 'Device Info'. The 'Device Info' column contains a 'Basic Information' section with details like Brand, Model, OS, CPU Model, GPU Renderer, Resolution, IMEI, and Have root access. It also includes a 'Storage' section with Memory, RAM, and Internal SD Card details. At the bottom of the screen, there is a 'Junk Files(9210)' button with a 'Clean' option. The background of the app is dark, and a large, stylized 'tomato' watermark is repeated across the entire screen.
